EDUCATION

Master of Science in IT (Information Systems)	Arizona State University, USA	GPA: 3.96	August 2017 - May 2019
Bachelor of Engineering in IT	Osmania University, India	GPA: 3.40	Sept 2012 - June 2016

SKILLS

Python, Java, JavaScript ES6, SQL, MySQL, MS SQL, PowerShell, Eclipse, Maven, Git, HTML/CSS, Apache Tomcat, JSON, XML, Django, NodeJS, MongoDB, Express, Ubuntu, Windows Server 2016, CentOS 6, Amazon Web Services

COURSEWORK

Software Engineering, Advanced SQL Programming, Web Development and Scripting, Cloud Computing with AWS, System Administration with Unix, Data Structures and Algorithms

WORK EXPERIENCE

Software Engineering Intern (MS Applied Project) **Edgenuity Inc., USA** January 2019 – Present

- Explored the current system in place and research for tools to automate a patch management system.
- Worked with Cloud-Ops team and reduced 30% costs in Cloud Operations by developing automation tool.
- Developed AWS CloudFormation scripts to spin up Windows Servers, SQL servers (Highly Available), and WSUS server with configured IAM Policies, roles and VPCs thus reducing manual efforts by 50%. Set up Chef Server, Chef workstation and configured Chef Clients.
- Used AWS OpsWork (Chef), AWSCLI and PowerShell to automate the patch release process following patch management policy on WSUS which contains different use cases.

Utilized: AWS, Chef, PowerShell, Windows Server 2016, SQL Server 2017, Server Clustering, Active Directory, WSUS, WSFC

Software Developer Intern **Mettle Solutions LLC, USA** January 2019 – March 2019

- Developed REST Web Service with Jax-WS to be consumed by customers and performed API testing.
- Translated shell scripts into object-oriented python code to improve security and performance.
- Developed unit tests further improving code coverage by 40%. And worked on fixing few critical impact bugs.
- Integrated SonarQube to build pipeline and resolved vulnerabilities thus improving overall product security.
- Assisted in dev and test (linux) server maintenance and security configuration.

Utilized: Java 8, JAX-WS, POJO, JavaScript, Maven, Apache Tomcat 8.5, Git, Python 2.7, Ubuntu 16, Postman

ServiceNow Developer Intern **Eastman Chemical Company, India** July 2018 – August 2018

- Assisted in migrating workflows from Infopath to ServiceNow. Developed workflows for approvals, notifications, tasks, and automation.
- Created UI Policies, Client Scripts, and Script Includes for Catalog Items and customized SLAs and OLAs.
- Integrated instances with Scripted REST API to trigger automated administrative actions to reduce manual workload by 50%.
- Demonstrated ServiceNow's integration with Active Directory using LDAP and Scheduled Jobs.

Utilized: ServiceNow ITSM, JavaScript, Active Directory, Windows Server 2016

Graduate Teaching Assistant **Arizona State University, USA** January 2018 – May 2018

Course: Introduction to Java Technologies

- Assisted professor with instructional responsibilities.
- Held weekly tutoring sessions on campus and online, and graded assignments and tests.

SOFTWARE PROJECTS

Visit <http://venkatam.com> (for additional information and projects)

Resource Ninja (Innovation Hub, ASU)

Utilized: MySQL, Django 2.0, HTML, CSS, JavaScript, Git

- Conducted interviews with end users and stakeholders to gather requirements.
- Implemented SQL query optimization techniques and improved database access speed by 30%.

Dear Diary – A personal journal application

Utilized: Python-Django 2.0, MySQL, HTML, CSS, JavaScript, Git

- Created an interactive front-end for the application with JavaScript, HTML and CSS. Implemented Class-based views and models in Django.
- Designed and implemented database in MySQL. Deployed the application on AWS with Elastic Beanstalk and RDS for rapid deployment.

Analysing crime data of the city of Los Angeles using Amazon Web Services

Utilized: Java, AWS Elastic Map Reduce, AWS Athena, Tableau, AWS S3

- Ran MapReduce on Amazon EMR with a transient cluster to reduce setup time and lower cost up to 90%.
- Connected Tableau Desktop to Amazon Athena to create Tableau Dashboards for visualizing output.

CERTIFICATIONS AND ACHIEVEMENTS

- Runners-up at IT Nerdhack 2018 powered by ServiceNow hosted at the Arizona State University.
- Published a paper titled Internet of things: Obstacles and Challenges in International Journal of Application and Innovation in Engineering and Management (IJAIEEM), Volume 5, Issue 10, October 2016.
- Server-side Development with NodeJS, Express and MongoDB by The Hong Kong University of Science and Technology. Link: <https://www.coursera.org/account/accomplishments/verify/JV76M367KUK3>
